Scrap Lace Workshop

Saturday, March 16 from 9:00 am to 4:00 pm

What do you do with fabric scraps that are too small to use and too precious to throw away? Sew them together and make a new piece of fabric. In this workshop you will experiment with fabric, thread, and stitch combinations that can be used for small sections of a garment like a yoke or sleeves and learn how to use the technique to create large pieces. It's a creative way to make your garments one-of-a-kind. Additionally, this technique can expand an amount of fabric that's not quite enough for the project you want to make.

Workshop fee includes continental breakfast, light lunch and beverages. Please register in advance for the workshop.

Trunk Show of Garments

Friday, March 15, 2019 7:00-9:00 pm

Mary's trunk show features a selection of garments and accessories that inspire and teach about fabric, design, embellishment, and technique including award-winning pieces, garments that have appeared in *Threads Magazine*, and current projects using sustainable techniques. As she shows her work, she relates stories of her creative life and travels along the way.
